Working to Build a Better World

Give a Gift that Will Make a Difference and Foster Positive Change in the World!

We turn our donors' gifts into compassionate action.

Through the generous support of people like you, we are working to create a culture of peace and non-violence, preserving the wisdom culture of Tibet and helping thousands of people in some of the world's most needy communities.

When you donate to the Foundation, you give gifts that truly matter — the gifts of peace, compassion, non-violence, spiritual nourishment, clean water, affordable health care, education, protection of the environment and many other programs that improve the quality of life in the world.

Plant a Tree – Help the Planet Breathe!

The health of every individual is important for the well-being of the planet, just as a clean environment is important to our health. Trees possess the precious quality of absorbing harmful gases, e.g. carbon dioxide, and replenishing much needed oxygen – key to sustaining life, enabling us to breathe and take care of our environment.

With just a \$20 donation, you can support the purchase, planting and care of a tree to be planted in one of several regions through out the world, including Shigatse in Central Tibet, an extremely dry and poor region, which is in particular need of trees and water.

\$20 - Plant a tree in the name of a family, friend or loved one

\$100 - Plant a group of trees in the name of a family, loved one or group
